BRIDGE DECK REPAIRS ON INTERSTATE 93 IN CONCORD
NIGHT WORK WILL REQUIRE LANE CLOSURES ON BRIDGE STREET

The New Hampshire Department of Transportation announces that bridge deck repairs will take place at the I-93 northbound and southbound bridges over Bridge Street in Concord. This work will require nighttime lane closures on Bridge Street that are scheduled to begin Monday, September 10, 2001.

A New Hampshire Department of Transportation crew will restrict traffic on Bridge Street to a single 14-foot wide lane in each direction starting the night of September 10. The lane closures will take place between 10:00 p.m. and 5:00 a.m. and are expected to continue approximately two nights until the work is complete.

Plans are to use flaggers, warning signs, and cones to guide vehicles through the work area. In the event of adverse weather, the lane closures may be delayed until the next suitable work night.

Motorists traveling on Bridge Street in Concord are asked to use caution when driving through the work zone, as workers and equipment will be present. Minor delays may be expected.
